

# Patton SXSciWeek 2018 Timeline for a Scientist Biography Project

Name: \_\_\_\_\_ Teacher: \_\_\_\_\_

**All projects are due on Thursday, November 15** and will be displayed at our Dec. 3-7 Patton SXSciWeek. This timeline is for students who chose to do a Scientist Biography project. We are providing you with this timeline and instructions (available for download, see link at bottom of page) to help you better organize, plan, and pace your time and work. Show this timeline to your teacher at each due date.

**Thursday, October 25** – Idea for your project is due.

I plan to do a project on \_\_\_\_\_ (name your scientist)

My scientist's main contribution to science is: \_\_\_\_\_

**Thursday, October 31** – Research is due. You've completed taking notes on the Notes Log, and you are ready to draft, revise, and edit your writing.

**Wednesday, November 7** – Plan of Action and List of Supplies/Materials is due.

I will need to take the following steps for my project: (for example, what kind of model will you make? what pictures, graphics, or other visuals will you include on your tri-fold display?)

---

---

---

I will need the following supplies and materials: \_\_\_\_\_

---

---

---

**Thursday, November 15** – SXSciWeek Projects are due to classroom teachers,
